Copy of Health Officer's Note, dated 28-2-1943,

"Sanitary Overseer, Doraswamy, had a second stroke of paralysis and has only recently recovered from it He wishes to retire from service and in order to obtain the necessary medical certificate for doing so, he was directed to the District Medical Officer, Mysore District The District Medical Officer has written to say that "he may be tried for some time" and that in case he is found sickly he may kindly be sent over, etc " With due respect to his opinion, I should like to say that I disagree with him

"I personally feel that he is unfit for work that he is sickly, and that if he is put on executive work in his present state of health, the strain of the work may easily bring on a third attack, probably with disastrous consequences to him He is a fit case for retirement and it would be in the interest not only of the party but of the Municipality as well to do so, because if he should be taken on work, I do not think that he will be able to give any satisfactory service

"The Overseer has put in 24 years and 11 months service He has taken 8 months combined leave 3 months privilege and 5 months furlough from -- 13-4-1942 to 13-12-1942 on full pay on medical certificate ~~on full pay~~ and he is now entitled to 4 months furlough on full pay on production of medical certificate If this leave is granted to him, he completes his 25 years of service and he will be titled for his full pension
